

Its all about you

When you choose the HomeGlide stairlift, you ensure an ideal solution for your staircase.

Slim Rail

The aluminium rail has a slim design giving a modern and clean look. The HomeGlide is fitted onto your staircase and not your wall. This allows the lift to be installed quickly, efficiently and with minimal disruption to your home.

Seatbelt

A retractable seatbelt keeps you secure while using your HomeGlide stairlift. The integrated sensor ensures the seatbelt is fastened securely before travel, and the stainless steel buckle is designed to be operated with just one hand.

Joystick

With a comfortable soft-touch grip, the integrated joystick is user-friendly and requires minimal effort to take you up and down your staircase with ease.

Folding Rail

If you have an obstruction at the foot of the staircase, you can choose to have an automatically powered hinge installed. Once you have used your stairlift the lower section of the rail will fold away, leaving the bottom of your staircase clear.

Call Device

Our optional call device ensures you stay connected with friends and family, with up to three different telephone numbers stored and contactable directly from your stairlift.

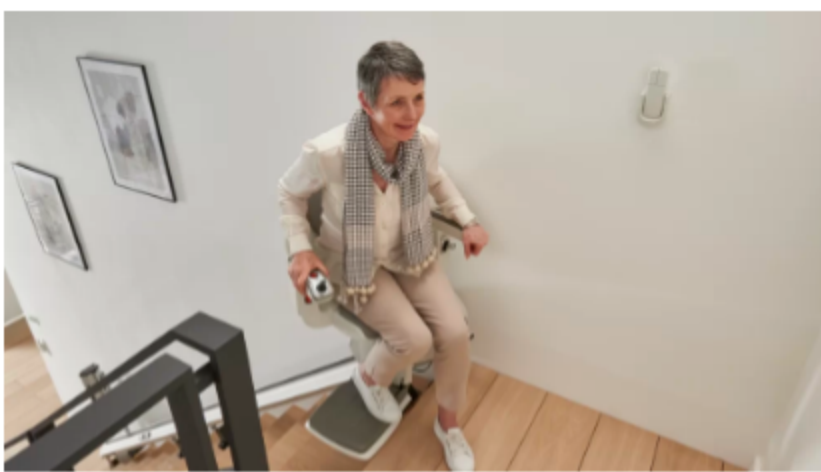

Discreet design

Engineered with modern manufacturing techniques and technology, the HomeGlide stairlift range can be fitted to almost all straight staircases as narrow as 740mm (29").

Enhance your comfort with HomeGlide Extra

By choosing the HomeGlide extra package, you receive all of the features and benefits of the HomeGlide standard with further features to ensure the most comfortable ride.

Powered swivel

The HomeGlide Extra package automatically upgrades you to the powered swivel seat. The powered swivel feature automatically turns the chair at the top landing as you maintain pressure on the joystick. This enables a safe exit from the chair as the lift automatically rotates towards the staircase landing.

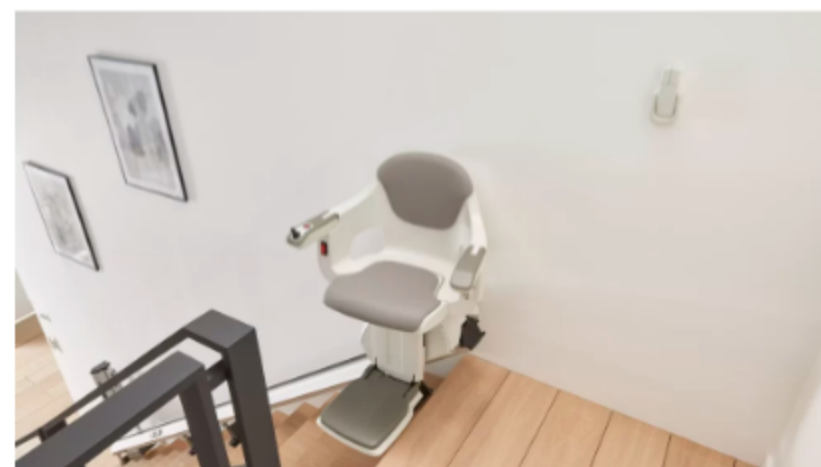

Powered linked footrest

With the HomeGlide Extra package, your HomeGlide comes with a powered linked footrest. This feature makes it almost effortless when unfolding the chair as the footrest is connected to the seat – eliminating the need to bend down and have any unnecessary strain on your body.

Keylock

To prevent unauthorised or accidental use of your HomeGlide stairlift, the HomeGlide Extra and Outdoor package comes fitted with a dedicated keylock. This enables you to isolate the lift to specific people and is particularly useful with children or grandchildren visiting or if your lift is used in a public setting.

Seat height adjustment

In addition, with the HomeGlide Extra package, you can choose from four different seat heights, providing a more tailored fit, ensuring the most comfortable seating position possible.

I am so happy with my HomeGlide stairlift. It's very comfortable, and the ride is super smooth. The service from the technicians from my local dealer was excellent, and I would highly recommend it to anyone looking for a new stairlift!
